#### Q5/

What is meant by maturity of a bill of exchange?

#### **Answer:**

Maturity of a bill means a date on which the bill is due for payment. Maturity date of the bill differs on the basis of the terms and conditions of the bill. There are three types of bill, *viz*. after date bill, after sight bill and at sight bill.

**1. After date bill:** In case of after date bill, the payment of the bill is made on the maturity date of the bill. The maturity date of the bill is ascertained by adding three days of grace period with the specified period of the bill (*which starts from the date of* 

**drawing**). For example, if a bill is drawn on 1<sup>st</sup> March, 2011 and payable after one month; its maturity date is 4<sup>th</sup> April. If the maturity date happens to be a gazetted holiday, then the bill is due for payment one day before. However, if the maturity date happens to be a casual holiday, then the bill is due for payment after one day.

- 2. After sight bill: In case of after sight bill, the payment of the bill is made on the maturity date of the bill. The maturity date of the bill is ascertained by adding three days of grace period with the specified period of the bill (*which starts from the date of acceptance by the drawee*). For example, if a one month bill is drawn on 1<sup>st</sup> March, 2011 and is accepted by the drawee on 5<sup>th</sup> March, 2011; its maturity date is 8<sup>th</sup> April. In this case, the date of the bill starts from 5<sup>th</sup> March and notfrom 1<sup>st</sup> March. If the maturity date happens to be a gazetted holiday, then the bill is payable one day before. However, if the maturity date happens to be a casual holiday, then the bill is payable after one day.
- **3.** At sight bill: In case of at sight bill, the due date of the bill is considered as and when the bill is presented for payment by the holder of the bill. In this case, there is **no** grace period. The bill becomes due whenever it is presented for payment.

# Q1:

A bill of exchange must contain an unconditional promise to pay. Do you agree with a statement?

#### Answer:

According to Negotiable Instrument Act, 1981, "A bill of exchange is defined as an instrument in writing, containing an unconditional order, signed by the maker, directing a certain person to pay a certain sum of money only to, or to the order of, a certain person or to the bearer of the instrument."

A bill of exchange contains an unconditional promise to pay a certain sum of money on an agreed date to the drawer or the bearer by the drawee of the bill.

An unconditional order to pay: It is one of the important characteristic of a negotiable instrument. Unconditional order implies **no** condition should be attached by the acceptor regarding the payment. The conditions like, payment of bill (only in case of profit on sales), payment of bill (only if the prices of goods increase), etc. should **not** be attached with the bill. Moreover, the language of the bill should **not** be ambiguous.

#### Q34

Explain briefly the procedure of calculating the date of maturity of a bill of exchange? Give example.

#### Answer:

The procedure to calculate the date of maturity of a bill of exchange is given below.

- 1. Ascertain the date on which the bill will be honoured.
- 2. Add three days of grace to the above date.

For example, a bill with maturity period of one month is drawn on 1<sup>st</sup> July and due date is 1<sup>st</sup> September. Then add 3 days of grace and payment will be made on 4<sup>th</sup> September.

Days of grace depend on the following situations:

**1. Declared holidays:** If the payment day happens to be a national holiday or Sunday, then the preceding day becomes the payment day.

# For example,

- 1. If a bill is drawn on 12<sup>th</sup> July and its due date is 12<sup>th</sup> August, then after adding 3 days of grace the maturity day is 15<sup>th</sup> August. However, as 15<sup>th</sup> August is a national holiday; so, 14<sup>th</sup> August becomes the payment day.
- 2. If a bill is drawn on 1<sup>st</sup> May and the maturity period is of one month, then the due date is 1<sup>st</sup> June. After adding 3 days of grace, the payment date becomes 4<sup>th</sup> June. However, if 4<sup>th</sup> June happens to be a Sunday, then the payment will be made on 3<sup>rd</sup> June.
- **2. Undeclared holidays:** If the payment day happens to be an emergency holiday, then the succeeding day becomes the payment day. For example, if a bill is drawn on 1<sup>st</sup> May and is payable after 15 days, then, after adding 3 days of grace period, the due date becomes 18<sup>th</sup> May. However, if a national strike is declared on 18<sup>th</sup> May, then 19<sup>th</sup> May becomes the due date of the bill.

#### Q21:

On Jan 01, 2006 Vibha sold goods worth Rs 18,000 to Sudha and drew upon the latter a bill of exchange for the same amount payable after two months. Sudha accepted Vibha's draft and returned the same to Vibha after acceptance. Vibha endorsed the bill immediately in favour of her creditor Geeta. Five days before the maturity of the bill Sudha requested Vibha to cancel the bill since she was short of funds. She further requested to draw a new bill upon her including interest of Rs 200. Vibha accepted Sudha's request. Vibha took the bill from Geeta by making the payment to her in cash and cancelled the same. Then she drew a new bill upon Sudha as agreed. The new bill was payable after one month. The new bill was duly met by Sudha on maturity. Record the necessary journal entries in the books of Vibha.
