**Note :** Read the passage given below and answer the questions that follow :

Soil is your garden's natural growing medium, so it's vital for the health and successful growth of your plants and crops that you keep it well maintained. Soil is basically rock that's been ground down by the effects of the weather over a long period of time. There are hundreds of different soil types, but they can broadly be classified as

sandy, loamy or clay referring to their basic texture. It is the texture that affects the drainage, aeration and nutrients content of the soil and you may have to take steps to improve on this in certain type of soil. Sandy soil fills gritty, when dry and even its wet particles will not stick together. Loams on the other hand, can be moulded in the hand when moist but aren't at all sticky and gritty, and are fairly loose when dry clay soil is sticky and smooth when wet, but becomes polished when rubbed and backed hard when dry. A loamy soil is a well-balanced amalgamation of sand, silt and clay, which combines excellent drainage with sufficient moisture retention to assure good growing condition for most plants. Its fairly easy to look after, although loamy soils do benefit from regular applications of well-rotted organic matter to prevent tightly packed. The particles consistency of Sandy Soil doesn't hold water well. Again well-rotted organic matter can be added to bind the soil particles together.

There are various methods of improving soil in texture. Essentially this requires regular applications of a well-rotted organic substance called humus, which is obtained from decayed plant and animal manures. Most fruits and vegetables however, grow better in natural soil. Clay soil is most difficult to work usually becoming water-logged.

I am fond of playing cricket. I am a bowler but when our opener lost fast their wicket, the captain sent me to bat. I was nervous, on the other end Ramsubhag was a good batsman. I gave him chance to play his strokes, but he was caught on 45. I started hesitantly, slowly the score built and my confidence returned. I got a beautiful six than a four. The other team made blunders in fielding. The score moved steadily, finally I crossed fifty on the other end. Wickets fell still we continued. In the 49th over we won the match. My bowling and batting made me a hero. I always remember this as a very good match.

**Note :** Read the following passage carefully and answer the questions given below it :

My introduction to the Y.M.C.A. Swimming Pool revived unpleasant memories and stirred childish fears. But in a little while I gathered confidences. I paddled with my new water wings, watching the other boys and trying to learn by aping them. I did this two or three times on different days and was just beginning to feel at ease in the water when the misadventure happened.

I went to the pool when no one else was there. The place was quiet. The water was still, and the tiled bottom was as white and clean as a bathtub. I was timid about going in alone, so I sat on the side of the pool to wait for others.
